

How My Health Club Took Me To The Top of The World

*Dr. Celia Martin-
Orthodontist/Explorer
Loyal Member Since 1983*

Like some kind of super hero, Celia seems to have two lives. During the week she's a mild mannered orthodontist, sharing a practice with her brother. But on any given weekend you may find her seeking the experiences of a lifetime like climbing Mt. Kilaminjaro or trudging through the frozen barren wasteland of the North Pole. It's true we don't know where she'll turn up next but one place you'll always find her is at our center. "The variety of equipment GHFC has available was vital for the cross training I needed to prepare myself," she said. "Strength, endurance, balance, coordination -- I needed it all for this trip! I've been all over the world, and this facility is truly the best in the world, Best of all it is right here in Gainesville." We can help you get ready to conquer the world. Call today for a free visit.
